

Material Safety Data Sheet

IDENTITY (As used on label and list): Enjoy Peroxide

Manufacturer's name: USP LLC
Address: 1818 Ord Way
Oceanside, CA 92056
Telephone Number for Information: 760.842.7700

GENERAL INFORMATION

Product Name: ENJOY PEROXIDE (Semi, 10, 20, 30, 40)
Product Class: A special purified grade of C G Hydrogen peroxide solution deionized water with stabilizers and conditioners.

HAZARDOUS INGREDIENTS

Boiling Point: Not determined or unknown.
% Volatile by Weight: Not determined or unknown.
Evaporation Rate: Estimated slower than ethyl ether.
Vapor Density: Not determined or unknown.
Vapor Pressure: Not determined or unknown.
Weight per Gallon: Approx. 8.6 lbs.

FIRE AND EXPLOSION DATA

Flash Point: None.
Explosive Limits: Contamination or blockage of vents in special cap may cause pressure build-up resulting in rupture of container.
Extinguishing Media: N/A.
Unusual Fire and Explosion Hazards: This product is not combustible but is an oxidizing agent and may cause a fire on wood, or other combustibles. Contact with flammable liquids or vapors may cause fire or explosion.

REACTIVITY DATA

Stability: Classified as unstable, especially if contaminated by organic material or certain metals such as brass, steel, iron, or copper.
Hazardous Decomposition Products: Oxygen.

HEALTH HAZARD DATA

EFFECTS OF OVEREXPOSURE/EMERGENCY AND FIRST AID PROCEDURES

Eyes: Solutions of hydrogen peroxide of between 6 and 8 percent are considered eye irritants. If product contacts eyes, flush them immediately with plenty of water for 10 or 15 minutes, even if no severe pain is immediately felt.

Skin: Concentrations of up to 8 percent hydrogen peroxide are neither toxic nor skin irritants (16XFR1500.41). However contact of this product with the skin may cause temporary whitening and a mild stinging sensation. Wash area of contact with plenty of water until stinging ceases.

Inhalation: Vapors may cause irritation to mucus membranes of nose and throat. Provide adequate ventilation.

Ingestion: Although hydrogen peroxide is nontoxic in concentrations found in this product, ingestion will result in rapid decomposition and gas production in stomach. This can cause injury by distention of the esophagus or stomach. Give lots of water if conscious, do not induce vomiting and get medical help.

Note to physician: Insert gastric tube to prevent increased pressure that may result from the rapid evolution of oxygen.

Cronic effects and medical conditions aggravated by overexposure: May include skin irritation with discomfort, tearing or blurring of vision, or irritation of the upper respiratory tract.

SPILL, LEAK AND DISPOSAL PROCEDURES

Wear protective rubber gloves and eye protection. Dilute spill with lots of water (10 to 20 volumes of the amount spilt) and flush down drain. **DO NOT ABSORB ON CLOTH, PAPER OR OTHER COMBUSTABLE MATERIAL.**

PROTECTIVE MEASURES

Keep out of eye: Avoid prolonged contact with skin; for external use only; dilute with plenty of water (10 to 20 volumes) before disposal down drain.

SPECIAL PRECAUTIONS

Handling and Storage: Avoid overheating. Freezing or contamination with any foreign substance, store only in shipping containers and only with specially vented cap provided by supplier. Do not dilute for disposal as outlined above.
